

450x445x1120mm (LxBxH)

Tank capacity / l per container	15
Fill level min.- max. / l	2-15
Compressed air supply / bar max.	3
Compressed air connection	1/8"
Output Separating agent	3/8"
Power connection / V	24
Weight / kg (empty)	70

Concentrate spray unit for ECO SPRAY spray technology.

- Pneumatically pressurized
- Container with 2x15 litre capacity
- Stainless steel
- Incl. 10m Cable 2W1.4
- Fine pressure regulator for release agent pressure 0.15-3 bar
- Double diaphragm pump for alternate filling of the containers
- Electrical sensor for level monitoring
- Indicator light Lack of separating agent
- Leakage monitoring
